PPP and EPSC in France by Frederic Bougrain

CSTB (Centre Scientifique et Technique du Batiment)

- CSTB had a workforce of 794 including Ph.D students, 723 of whom are permanent (end of 2007).
- CSTB activities consist mainly in:
  - exercising fundamental research works,
  - exercising its know-how in consulting (technical assistance) to manufacturers, architects, building owners, authorities, and manufacturers,
  - evaluating the innovative techniques and products for French and foreign manufacturers,
  - providing its assistance to administrations in setting up the regulations, the standards and the European harmonisation.
