WE GROW AS WE BUILD

Technical Workshop AutoCAD

AutoCAD is a computer-aided design (CAD) and drafting software application. It is essential for wide range of professionals: engineers, architects, project managers etc.

We believe that this workshop can well equip you for Mingde construction projects and your university studies. Please do not hesitate, grab your chance!

About Project Mingde

Project Mingde was established in 2003, with a belief "We grow as we build" which upholds the motto of HKU. Project Mingde provides a platform for students to participate in hands-on multi-disciplinary civil engineering projects and to serve the community in impoverished regions.

Workshop Details
