

The Code itself

- Act Honestly – avoid conduct likely to result in the deception of others
- Act Fairly – do not seek a benefit arising from unfair treatment of others
- Fair Reward – avoid acts which deprive others of a fair reward
- Reliability – maintain upto date skills and act in your area of expertise
- Integrity – have regard to the interests of the public
- Objectivity – avoid and/or disclose conflicts of interest
- Accountability – provide information and warning to others of matters within your knowledge

Promoting ethical improvements in the construction ind. - a single prof. code?
