

## **Construction Law Task Force Meeting**

Useful up-dates on the rapid development of the international CIB W113 on 'Law and Dispute Resolution' were conveyed by its co-ordinator Dr. Paul Chynoweth, who also touched on hot topics and trends in law and dispute resolution in general. This was followed by discussions on recent and planned activities of the LARC and COPA Study Groups which were launched under the umbrellas of CIBW13 and HKU-CICID in 2007. Valuable ideas were generated and these would feed into the next stage of developments.
