

Handover Ceremony of New Composite Building of Duling Primary School

(20 Oct 2023)

Tsang Tsz Yeung, Ryan – Beng(CivE) III

Vice President (Project) of Project Mingde Student Association

New Composite Building of Duling Primary School: Project Mingde carried out the expansion from 2016 to 2023 to construct the New Composite Building of the Duling Primary School. This project aims to improve the educational facilities and teachers' living quality through this project.

The New Composite Building of Duling Primary School in Guigang, Guangxi had been completed in 2023. The handover Ceremony cum Opening Ceremony was held on October 20, 2023.

After the completion of the opening ceremony, we handed out bags of gifts to the local children one after another. Seeing their smiles, we realized that all the preparations were worth it. It does not only bring joy and happiness to the children but also serves to foster community engagement and create Lasting Memories.

After the guest speeches and student performances concluded, the weather cleared up miraculously, and the drizzling rain came to a halt. We moved the ceremony outdoors to proceed with the ribbon-cutting ritual, creating a lively atmosphere. Accompanied by the cheers of the crowd, this newly constructed campus was officially handed over to Duling Primary School.

"Friends coming from afar, isn't it delightful?" The local children brought us the most wonderful performance, bringing moments of joy to the handover ceremony.

The Master Calligrapher travelled from afar to the handover ceremony. He performed writing ancient Chinese calligraphy, and he wrote "shou zhe ren wei" for primary school. He added the finishing touch to the entire handover ceremony, marking a perfect ending to the ceremony.
