

Project Mingde 2005 - 2014

It was a privilege to be invited the first time and such a pleasure to visit again in 2014.

Due to the tireless efforts of all concerned the day and the celebrations were wonderful. It was a touching reminder of all hard work, emotional, financial and physical that has been invested over the years by Nicolas and Lorene Yeung.

The ladies of the village were appreciated for their touching tribute to Lorene who would have been so proud.

Peter and Christina Mathison planted the tree with loving care which will take root, flourish and grow as has the project.

It was amazing to see the happy faces of the children performing with such enthusiasm. Everyone in the village looked so well, happy and confident. The school has given them an education which will change their aspirations and impact on the lives of the future generations.

Thank you so much for inviting me to be present on such a marvellous occasion, the hospitality and kindness was overwhelming. So such a fulfilling and life changing project. Best wishes to all concerned.
