TO = the organiser of Mingde

Congratulations to you all. The celebratory event has been a great success. The events ran smoothly apart from the puncture of the oil pipe underneath the car (due to a rock or hole in the middle of the dusty road). The people we met were warm and welcoming, and Nic Yang, as leader of our team from HK, could not have been more considerate and attentive.

We were also most impressed by the ^{manner in which} ~~way~~ the Vice-Chancellor + his wife participated in the 10th celebratory event - and the way in which he planted the 紀念樹, not only with his hands but his feet too! Any one could also see that the educational facilities of the village tribe has been greatly improved because of the existence of the school amidst their wooden bungalows / 2 story-thatched houses.

A final thank you and appreciation must go to Nic and Lorene who, together, have been selflessly and unfailingly given their every support, time + money, to ensure success of the Mingde project.
